“ I worked with Jeanne at Sweetbrook for many years. she was the the kindest, classiest, most compassionate person I worked with. She always had a kind word and put the resident care first, stopping as she walked down the hallway to go back and get a comb to fix someone's hair as they were sitting in the hall or taking the time to listen to the resident tell a story. She made the residents and the staff feel good and many people were better off for having had her in their life. Thank you Jeanne for being such a positive light, the world needs more people like you!
